## *Portrait Photography Guide*

---

“Despite all your preparations (and no thanks to the open bar) no one will recall the details until the photos arrive. And while shots of Uncle Leo’s Electric Slide are always entertaining, you don’t really need them in your album. The more crucial pics are of the day’s poignant, fleeting moments.

Scott Levine gets those-*he gets everything*-with the uncanny sense of timing and sharply trained eye that comes from 20 years on the circuit.”
