

PRIVATE CLIENT PROGRAM

Throughout the year we offer a Private Client Program to a limited number of exhibitors who are serious about their horses and their memories. As we do for our Book Clients, we are offering a plan that will assure you of great photos and great coverage without the creation of a book as the end product.

Private Clients will be photographed in their performance classes and those photos will be posted on our website in their own private gallery. Those galleries are updated nightly and are immediately available as low res downloads for our clients to post on social media, websites and to share with family and friends. In addition, our Private Clients will get candid photos around the ring of horses, friends and family. Lastly, you can order any enlargements from your gallery at a 50% discount from our standard price list.

We offer the option of any PC client to get a book designed after the contract period. The design fee is \$3,500 for a short term book design and \$5,500 for a year long PC contract book design.

Thank you for your interest,
Please contact James with any additional questions.
