### HOW IT WORKS

PICK YOUR STYLE  
*contemporary or traditional*

Rather than just guessing what you might like, I begin by helping you select the display style that appeals to you and there are several from which to choose. This allows me to create a unique series of images that also fits with your style and the personality of your dog.

I provide direction and suggestions about everything that will express visual style and creativity, resulting in a remarkable series of images that will be perfect for you, and nothing is left to chance.
