

# A HEALTHY AND SAFE WELCOME

As I reopen my photography studio during this pandemic, I wanted to let you know a few things have understandably changed in my procedures in response to COVID-19.

If you have a temperature or any symptoms of COVID-19 (cough, fever, shortness of breath, chills, muscle pain, headache, sore throat, loss of taste or smell) or have recently come in contact with a diagnosed case of Covid-19 prior to your session **please** call me right away so we can reschedule at a later time. Rescheduling fees are waived!

## For In-Studio Sessions:

- Call me once you arrive from your parked car. I will let you know as soon as I am ready for you to check-in for your session. I need to first be sure that the studio is sanitized after any prior clients have left the building.
- You will wash your hands and then using a non-contact digital forehead thermometer I will also take your temperature. If your temperature is at or higher than 100.4 we will reschedule the session.
- Please **wear a mask** or face covering while in the studio. This will be removed once the photography begins for your portraits and during hair and makeup changes.
- We will maintain proper **social distancing** as much as possible.
- As your photographer I will wear a mask and plastic gloves as necessary. I will sanitize all communal surfaces before and after every session with EPA-registered disinfectants.
- We can no longer offer you a beverage when you arrive, please bring a personal drink container to use during your session. There will be no eating in the studio so we ask that you limit snacks for children till after they leave.
- Please bring everything you will need for makeup, hair brushes, and hair styling products. We can no longer share studio supplies.
- We currently cannot accommodate more than 10 people in the studio at any given time.

## For Location Only Sessions:

- We will maintain proper social distancing as much as possible and limit groups to less than 10 people.
